

INNER PEACE AND TRANQUILITY

About this orgone

My orgone creations use a combination of orgone matrix and healing crystals to help people make energetic shifts. An orgone device is a substance made of resin, metals and quartz that strengthens your body's energy field, helping to protect you from negative energy and EMFs. Crystals work by exposing your energy body to a certain healing frequency, until your natural frequency is raised to resonate with the crystal's.

Crystals

Green Aventurine - Physically, Green Aventurine is an all-around healing stone with benefits for the lungs, liver, sinuses, and heart. Use Green Aventurine to loosen and release negativity and energy blockages, including disease. Some wear or carry Green Aventurine to increase intelligence, perception and creativity.

Moonstone - A stone for "new beginnings," Moonstone is a stone of inner growth and strength. It soothes emotional instability and stress, and stabilises the emotions, providing calmness. Moonstone enhances intuition, promotes inspiration, success and good fortune in love and business matters.

Red Crystal: Red Crystals symbolize passion, energy, and life. They will motivate and keep you determined. They can be emotionally intense, but they will excite you, give you a boost of energy, and raise your enthusiasm levels. They will be very beneficial when you need to be actively involved, and when your energetic action is required. Red Crystals have the ability to uplift and empower. They will cure your apathy and help you get things done. If you're suffering from lack of power or inspiration, Red Crystals will get rid of your listlessness and restlessness.

Other Material

Copper: Copper is known as the lucky metal, as well as the healing metal. It is the conductor of the spiritualist's belief system. Copper conducts spiritual energy back and forth between individuals, crystals, auras, the mind and the spirit world. Any stone with Copper, in or around it, is said to have enhanced properties.

All orgones are made using various shaped silicone molds and resin.
