

INNER PEACE & TRANQUILITY

About this orgone

An orgone device is a substance made of resin, metals and quartz that strengthens your body's energy field, helping to protect you from negative energy and EMFs. Crystals work by exposing your energy body to a certain healing frequency, until your natural frequency is raised to resonate with the crystal's.

Crystals

Quartz: Its metaphysical purposes are vast, from helping to expand consciousness to facilitating open communication and stimulating the chakras. For those needing clarity of mind, clear quartz healing properties will eliminate energy blockages and allow energy to flow smoothly throughout the body.

Tiger's Eye: Tiger's Eye Stone is a crystal with lovely bands of yellow-golden color through it. This is a powerful stone that helps you to release fear and anxiety and aids harmony and balance. It stimulates taking action and helps you to make decisions with discernment and understanding, and unclouded by your emotions. It is a stone that amplifies and boosts the energies of any quartz, crystal, or stone.

Sodalite: Sodalite brings order and calmness to the mind. It encourages rational thought, objectivity, truth and intuition, along with verbalisation of feelings. Sodalite brings emotional balance and calms panic attacks. It enhances self-esteem, self-acceptance and self-trust.

Magnetic Hematite: Hematite helps to absorb negative energy and calms in times of stress or worry. Hematite is a very protective stone and is great to carry to help you stay grounded in many situations. Hematite is also good for working with the Root Chakra, helping to transform negative energies into a more positive vibration.

Other Material

Copper: Copper is known as the lucky metal, as well as the healing metal. It is the conductor of the spiritualist's belief system. Copper conducts spiritual energy back and forth between individuals, crystals, auras, the mind and the spirit world. Any stone with Copper, in or around it, is said to have enhanced properties.

All orgones are made using various shaped silicone molds, quartz crystals and resin. Additional items and metals such as aluminum, brass, decorative rocks, and colored sand or gravel may be included to create a unique design.
